

BECK'S

REMOVALS & STORAGE

OUR HISTORY

2001

James Beck purchased a Luton van in order to help the vulnerable elderly people of Portsmouth move to assisted living. The business grew quickly and was soon operating three Luton vans and a 7.5 tonne truck.

2003

A new operating centre and premises were acquired in Northney, Hayling Island.

2004

It was time for a new name and the 'Beck's' family name was adopted. Moved to larger premises in Fareham.

2009

Beck's began a working relationship with Pickfords removals and storage.

2017

Beck's acquired all Pickfords operational staff and branches from Bognor Regis to Taunton.

2020

Covid arrived and all removal companies were instructed by the British Association of Removers to cease all moving. Partnership with Pickfords ended and all livery rebranded with the Beck's Logo.
Beck's moved to lease our current premises in Havant, providing 20,000 sq.ft of storage space.

2023

Beck's continue to grow storage capability.

2024

Additional 20000 sq.ft of storage space acquired in Chichester.

Welcome!

Dear Sir/Madam,

I would like to take this opportunity to introduce myself and the services offered by my company Beck's Removals Ltd.

I am James Beck. I have been involved in the moving industry since 1981.

We are very much a family focused business from my wife Hannah who designs our marketing, my daughter Erin who you will often find on the other end of the phone when you arrange a survey, whilst managing the customer service experience for you from quotation to collection of your used packaging, My daughter Alice and son-in-law Dan are part of the operations team.

My Co-Director Andy Grice will often be the face of Beck's when you book a survey assisted by our senior surveyors Alan Carpenter or myself.

Andy also ensures the correct vehicles and staff are allocated to every move to ensure your move is performed seamlessly.

All our full-time staff have many years experience in the moving industry and hold shares in the company. All have been with us for several years and because we care about them, they understand the importance of giving exemplary serviced to our customers. Beyond their expertise, they bring a friendly, approachable attitude to ensure a comfortable moving experience.

I started the business in 2001 on Hayling Island before moving the business to Fareham and acquiring further operating centres in Poole and Eastleigh. When COVID came I acquired our current warehouse in Havant which offers 24000 square feet of storage space, gave up Fareham, Poole and Eastleigh and in January 2024 acquired our Chichester Store which offers an additional 20000 square feet.

Whether you require packing materials, self-storage, traditional home contents storage, an full or part packing service, full or part relocation service, office moving, local, national & worldwide or simply want to de-clutter whilst selling or refurbishing we have a solution that will suit your needs.

We are proud members of the British Association of Removers (BAR) ensuring we uphold the highest standards in the industry by adhering to a strict code of conduct.

Our approach consists of professionalism, reliability and customer care.

To ensure a smooth and well-planned move, our surveyors prefer to conduct in person home surveys. This allows us to fully understand your needs and tailor our services accordingly. We also offer WhatsApp video surveys as a convenient alternative. Our surveys typically take 30-40 minutes, and within 48 hours you will receive a detailed written quotation outlining costs, structured moving plan and our terms of business - completely free of charge.

We would be delighted to assist you in any way possible.

Please contact us via email at moving@becksremovals.co.uk or call us on 02392 006195 for further information.

Thank you for your time and consideration.

We look forward to having the opportunity to serve you.

Kind regards

James Beck

The reality of traditional self-storage is that once you rent a unit, it often becomes a forgotten space that you continue to pay for through a direct debit. But at Beck's, we believe in providing a self-storage experience that is convenient, hassle-free, and tailored to your needs. When you choose traditional self-storage, the process of getting your goods into the unit can be a challenging and time-consuming task. You may find yourself unloading in unfavourable weather conditions, shuttling your belongings in multiple trips on trolleys, and navigating lifts and blocked corridors due to others emptying their units. However, at Beck's, we have designed a more efficient and convenient solution. With Beck's Containerised Self Storage, your vehicle is conveniently reversed into our warehouse, ensuring that you and your belongings stay dry regardless of the weather. We deliver a container directly to you, allowing you to load your items directly from your vehicle. This eliminates the need for multiple trips, saving you valuable time and effort. No more struggling with trolleys or dealing with crowded corridors – our streamlined process ensures a seamless and stress-free experience.

Once you have completed loading your container(s), they will be securely sealed and placed in our warehouse. You can have peace of mind knowing that your belongings are stored in a safe and monitored environment. When you need access to your items, simply give us notice, and we will make your container(s) available for your visit. At Beck's Self Storage, we go beyond providing a convenient storage solution. When you visit our facility, you have access to experienced removal staff who can offer advice and assistance. Should you require any packing or protection materials, we have you covered. From the survey to the completion of move the level of service has been outstanding. Even when I hurt my back and was unable to pack my stuff Bradley came up trumps. The two guys that moved me arrived promptly and were always polite and listened to my instructions. I would recommend this company to anyone”
